

Physical Literacy 2016/2017

At Ravensdale we look at our children's Physical Literacy according to the milestones from Derbyshire Health Service.

We then put in a programme of activities to suit individuals and group to try to address any issues arising.

The screening takes place during the first week of the autumn term for all Year 3 children. **Children should be scoring 15/19 from the exercises.**

These were the findings for year3; 2016-2017

	Children scoring 15+ Recommended milestones of activity
Test Beginning of Autumn Term 2017	15%
Test End of Autumn Term 2017	54%

Following the second assessment 7 out of the 70 children had shown little improvement with the milestone exercises!
