21st September 2017

Dear parents

We have been working hard in school to improve the working environment for the pupils both inside and outside the school. Over the past year we have redecorated six classrooms, improved storage in school, replaced and improved display boards and had windows and cladding replaced around the school. We have also had a new shed which is now full of toys and equipment for the pupils to play with outside. (I hope they have told you how much fun they are having with these!)

We would very much like to further improve the outside environment and are asking if any parents and pupils can help. Pupils must be accompanied by an adult.

PLANT AND FIX THEN SHARE SOME CHIPS!

On Friday October 6th from 3.45- 5.45pm and on Saturday 7th October from 9.30 am - 12pm, we are asking if parents and pupils would help us spruce up the outside of the building. The types of jobs that need doing are planting daffodil and crocus bulbs, cleaning the bike shed, staining picnic benches and planters and painting other benches.

At the end of each session, your reward will be a cup of tea or squash and a chip butty! We will provide paint brushes and have some garden tools, but if you can bring your own protective clothing and have any spades, bulb planters or trowels, that would be very helpful.

If you feel able to assist us, please could you complete the slip below and return to school so we can make sure we have enough chips!

Many thanks for your support,

Zoe Cannon

Head Teacher

FAO School office

We would like to help on Friday 6th October /Saturday 7th October (delete as appropriate)
